Proposal: Proposal and Content for *VisionBound Virtual Leadership Institute*

From: Kevin R. Miller, President VisionBound International LLC

1. The Compelling Need: Few things are as important today as the need for visionary, inspiring and motivating leaders, and this is essential in every business or human endeavor. The need is only greater as we face a pandemic-driven and changing future. Those companies and teams who thrive in the future will be those who are led, not merely managed. With the ever-changing business and world environment, this is becoming even more important.
2. A Solution: Our team, led by Kevin R. Miller, presents up to a 12-session *VisionBound Virtual Leadership Institute* for up to thirty managers, recommended to be held one hour each week. The program will be offered via Microsoft Teams, ZOOM or another selected medium. Sessions will be recorded for later viewing by those who miss or want to review. This program will develop current and future leaders with over a dozen key skills, ranging from interviewing and hiring, to building great teams, leading powerful meetings, coaching, and resolving individual and team conflict.

Kevin has had extensive experience working with business, healthcare, education and government teams in the United States, Asia and Europe for thirty years. We also can involve other experts, including those from your company.

3. The Design: This *Virtual Leadership Institute* can take place over a three month period or twice a week for six weeks. About ten topics will be presented, typically one hour each week. Individuals can register and participate from their own computers, mobile phones or digital devices, or can gather in small groups to learn together. Everyone will be able to chat and interact with the presenters and each other. Materials will be printed and distributed locally into binders provided by the unit. Some recent participant comments are shown at TAB B. Also, a brief video about the program can be viewed online at <https://vimeo.com/453996864>

The outline presented in this document is only one possible design but the content and number of sessions can be customized.

Continuing Education Credits can be awarded for attending at least 80% of the sessions and completing the course assignments. I can provide you with the information to get this course certified for these credits.

Learning Experiences:

1. Bring a network of leaders and prospective leaders together for collaborative learning and networking in a web-based environment. Present powerful learning on a wide variety of subjects pertinent to leader/manager development.
2. Each person will have an accountability/learning partner through the program and will hopefully meet with this person at least monthly in person or by web-meeting.
3. Participants will use the learning from the class to create their own *Individual Leadership Development Plans*.
4. Teams or companies can also conduct a Helm/Culture Survey to have aggregate data on their company or team. See www.surveymonkey.com/r/helmsurvey
5. I recommend the main textbook for the course will be *The Leadership Challenge* (sixth edition) by Kouzes and Posner, with its accompanying project workbook. Available through Amazon or other resellers.
6. Participants can choose to also apply their learning to solve a significant issue in their organization through a project and present their results to the rest of the class.
7. Attendees will be encouraged to read one additional book each month from a list of suggested books and share what they have learned in chat sessions in each session and with their accountability partner.
8. An on-line blog/learning community will allow participants to share ideas, best practices, ask questions and get advice from the instructors and each other.
9. Personal, one-on-one or one-on-group coaching with Kevin R. Miller can also be arranged separately.
10. Individuals may also participate in a personal 360-degree leadership profile, *The Strength-Based Leader* which provides personal, private feedback from self, peers, manager and others. This is provided and priced separately.

Main Learning Outcomes: Participants will:

1. Understand the power and importance of powerful leadership and how leadership differs greatly from management. (It is certainly possible to manage a business, office or team and never really lead it!)
2. Create and articulate a “North Star” of vision, mission, values and measures of success for the team.
3. Understand the difference between strategic, operational and tactical leadership and how to think in each of these three areas.
4. Analyze the current strengths and challenges of their team or company through the Helm Survey: www.surveymonkey.com/r/helmsurvey. This survey will be administered two weeks prior to the course start date.
5. How to motivate others through performance discussions. We will provide a model for performance and development planning, including the forms for doing this.
6. How to delegate effectively using the six steps of delegation.
7. Use the deck of *LeaderTip Cards* which I will ship to HIS groups to create an action plan.
8. How to lead effective, focused meetings.

9. How to resolve interpersonal and team conflict.
10. How to manage personal time as a senior leader (Care and Feeding of Monkeys).
11. Create a personal *Individual Leadership Development Plan* based on what they learn in class.
12. How to manage stress in themselves and recognize and mitigate organizational stress by having more fun and healthy activities at work.

Logistics and Pricing:

1. Pricing depends somewhat on the final design, whether books are included, and number of participants. Past projects have been priced at about \$495 per person for a class of 20-30. This equates to around fifty dollars per person per hour for excellent content and instruction. Also, for companies in Utah, the Utah State Custom Fit program may be able to fund 40% of this for non-government/for-profit teams in Utah and there may be other such programs in other states.
2. The course will be held primarily in a web-based Microsoft Teams group to allow for interaction, follow-up and discussions. Other platforms can also be used.
3. Sessions will involve behavior-based applications each week.
4. Materials will be available for online download and printing. Or can be shipped from us. Also, decks of LeaderTip Leadership Hot Tip Cards which will be provided.
5. A robust system of follow-ups and accountability can be added through the Tyfoom system: see www.tyfoom.com. Participants can make, track and report their commitments and actions, receive text reminders, view videos, and managers can easily see how their team and its individuals are performing. This is an extra monthly cost but is well worth it for the results it offers.
6. In 2021 we will be releasing a state-of-the-art Learning Management System that will provide easy access to recorded and live programs, a vast digital library and personal coaches.

Developing Inspiring Leadership

Dr. Peter F. Drucker said, *“Only three things happen naturally in organizations: friction, confusion and underperformance. Everything else requires leadership.”* Great leadership releases the full potential of everyone in the team which then spreads out to increased performance in the entire team.

Basic Program Design: The content will be organized around VisionBound’s *Taking the Helm Model* shown to the right. Great leadership requires action, not position. Your team or company needs your steady, but caring, hand on the helm, to guide it towards the future and create a positive, productive culture.

TRUST forms the axis: without high trust, things slow down and cost more. And high trust not just in people but in systems. Next, **Envision**: create a powerful, guiding vision, mission, values and measures of success and involve everyone in the creation process. Next, a vision is of little value until everyone from the top down is mentally, emotionally, spiritually and physically **Enrolled** in it. But enrollment is not enough, we must **Enable** them with the time, material, training, money and resources to carry out their roles and vision. We continue by **Engaging** them through motivation, delegation and constant involvement. Finally, we involve everyone in the process to **Explore** new horizons: better and different ways to think and do things. Yet, your “ship” will face challenges: the high and turbulent seas of change!

Leaders, Take the Helm!

TAB B:

Here are some testimonials I just received for the program I taught to 30 Army civilian leaders in Germany in the Fall of 2020:

Visionbound International, led by Mr. Kevin Miller, recently provided an outstanding 12-week Virtual Leadership Institute Seminar to 30 employees in our organization. Kevin's understanding of leadership and his ability to clearly articulate his approach to employees of differing skill levels and experience was remarkable. Kevin's takes the seminar participants through a new topic each week that includes topics such as defining leadership and its importance; and explaining how to create a vision, resolve conflict, and lead change within an organization. The seminar effectively uses small group discussions outside of "class" to develop and implement "Monday Morning Plans" focused on the participants holding each other accountable for turning the leadership principles they are learning into action. The materials provided throughout the course markedly improved the learning experience and also serve as invaluable resources for employees as they continue to grow and strengthen their leadership skills. I am confident that Kevin's seminar has given our employees a solid foundation for improving their leadership and effectiveness.

I had the recent pleasure of participating in VisionBound's Virtual Leadership Institute. I found the entire experience enlightening and engaging. What impressed me the most was Kevin's Helm leadership model, which is the simplest and best leadership model I have ever seen, considering that I helped coordinate the curriculum for the Executive Leadership Development Program (ELDP) for three years for the Office of the Secretary of Defense, based upon the DoD Civilian Leader Development Continuum and DoD Civilian Leader Development Framework.

I was also impressed that he taught best practices for each leadership competency that he taught and provided guidelines and job-aids so that participants could implement the competencies immediately. Kevin challenged the learners in each session to apply the tools, interact with an accountability partner, and report in a running After Action Review what they learned and applied each week. One of the favorite tools was the deck of 38 LeaderTip cards: participants chose cards to focus on each week and scoreboard their usage.

At the beginning of each session, Kevin had a few participants share how they had been applying the workshop principles and competencies, the behaviors from the LeaderTip cards, as well as the principles and practices from the assigned book, *The Leadership Challenge*. In spite of having only an hour for each of the 10 sessions, Kevin provided some time for participants to discuss and practice the competencies, and plan how they would apply them.

I have studied, researched, implemented, and taught best-practice instructional principles and strategies for most of my career, and have a Ph.D. in instructional design. Rarely have I seen the principles applied so effectively to leadership training. This course is unusually powerful and extremely impactful for anyone who wants to accelerate their skill and success as an inspiring leader.

I have been working over 35 years for the government encompassing both 22 years in the Army and 13 years civil service with an educational background of a Master's degrees in Management, Human Resources, and Education. VisionBound's virtual leadership institute provided a fresh approach to leadership training, new material gained, and a reminder to follow my heart.

Our Army command recognized a potential leadership issue and decided to give VisionBound an opportunity by providing us a 12-week small group leadership facilitation course with a delivery method through Microsoft Teams. Kevin Miller "knocked it out the park" by providing a weekly one hour plus interactive seminar with the students, weekly reading assignment and exercises, weekly accountable after-action reviews with a learning journey, 37 different VisionBound Leader Tip cards with challenge events impacting the organization, various surveys, personal stories relating his leadership experience, and more importantly a leadership binder full of references to refer to after the course has been completed.

This program, led by Kevin R. Miller, accelerated our understanding of effective leadership performing our daily mission to the warfighters within the European area of responsibility. I highly recommend VisionBound International, particularly to both civilian and military organizations looking to develop, coach, and mentor their personnel at the junior level of leadership. Kevin compellingly and carefully describes the critical role leadership plays in any organization. Over 12 weeks, Kevin masterfully navigated the virtual environment and engaged me through a series of insightful and thought-provoking lessons and exercises. Our work with accountability partners successfully helped me turn leadership into tangible action that

produced superior results. The most important anecdote to me is the last thing the authors of The Leadership Challenge tell us “Leadership is not an affair of the head. Leadership is an affair of the heart”.

Bill Huggins, 21st Theater Sustainment Command, Kaiserslautern, Germany

The Vision Bound Leadership Challenge course led by Kevin R. Miller is a very inspirational, condensed 12-week course with powerful tactics on how to steer organizations in the right direction. My take-a-way from this course is that of “do unto others as you would have others do unto you.” It’s basically geared towards treating everyone as equally capable of leadership in the absence of leadership. Empower employees, reward work on a daily basis even if the task is not one of a strategic nature. Get to know your organization and those who run the organization. Break bread, step outside of your office to see how others keep the daily tasks on-going. There are numerous advantages and lessons taught in a short amount of time. I could go on and on about the benefits of the course and I would recommend this to any institution as the rewards are tremendous both to leaders and employees. I am honored to have had the opportunity to participate in this course.
